JAMESON RANCH EQUIPMENT LIST

This list is not absolutely rigid and you may substitute. As you are collecting equipment for camp, keep in mind the following points:

1. Be sure to send the full amount of bedding, because at any time we may have cold nights (We recommend a sleeping bag rated for 20°F). If you have only a lightweight sleeping bag, send a couple of extra blankets.
2. We strongly recommend a sturdy trunk for storage of personal items. Since the campers are living outside, a trunk is the most convenient and tidy way to store clothing, such as offered by EverythingSummerCamp.com. They can be pricey. Other options include large plastic containers with lids or less expensive trunks.
3. The boots for horseback riding need to have solid covered toes (leather is best) with relatively smooth soles (no lug soles please) and a defined heel. These features are for safety when riding western saddle. We have a boot bank started for those campers who show up without boots. Please consider donating outgrown boots if you have them. Rock climbing shoes are expensive but do make the sport much easier if your child plans to take part in that activity.
4. Flip-flops are awful when walking in the mountains. We recommend Chacos or a decent sandal.
5. Remember to mark all items clearly with an indelible marker. Unmarked clothes that are not claimed go to the Salvation Army at the end of the summer.
6. We do not have a camp store so you need to send the items on the following list...

BEDDING
_____ Sleeping bag
_____ Pillow
_____ 3 pillowcases
_____ Extra blanket

CLOTHING
_____ 10 changes of underwear
_____ 10 pair of socks
